

RURAL PROGRAMS

A GUIDE TO THE RURAL PHYSICIAN
PROGRAMS IN BRITISH COLUMBIA

Prepared by the Joint Standing Committee on Rural Issues

February 2013

This handbook is a guide to help rural physicians gain an understanding of the programs and support available to them through the Rural Practice Subsidiary Agreement (RSA). This document provides a brief synopsis of the programs offered. Physicians should refer to the official policies, terms of reference, agreements, and applicable government legislation for more information on eligibility for each program. Clarification and interpretation of these official programs and policies may also be obtained by contacting the Ministry of Health – Rural Programs or the British Columbia Medical Association using the contact information provided in this booklet.

The RSA is available at:
www.bcma.org or
www.health.gov.bc.ca/pcb/rural.html

Introduction

The Rural Practice Subsidiary Agreement (RSA), signed as of April 2012, is a subsidiary agreement of the Physician Master Agreement between the BC Government, the British Columbia Medical Association (BCMA), and the Medical Services Commission (MSC).

The Joint Standing Committee on Rural Issues (JSC), established under the RSA, is comprised of representatives from the BCMA, the Ministry of Health, and the health authorities. The JSC advises the BC Government and the BCMA on matters pertaining to rural medical practice.

The goal of the JSC is to enhance the availability and stability of physician services in rural and remote areas of British Columbia by addressing some of the unique and difficult circumstances faced by physicians in these areas.

Overview of Programs & Contact Information

Listed below is the contact information for the programs available to rural physicians who practice in eligible RSA communities that meet the minimum point requirements under the Medical Isolation Point Assessment system (see page 33). A current list of RSA communities begins on page 29 of this handbook.

PROGRAMS

- Rural Retention Program (RRP)
Retention payments paid to physicians working in eligible RSA communities.
- Rural Continuing Medical Education (RCME)
Provides rural physicians with enhanced CME funding.
- Recruitment Incentive Fund (RIF)
Funding for physicians recruited to fill current or pending vacancies.
- Recruitment Contingency Fund (RCF)
Additional funding to assist communities, health authorities, or physician groups where the difficulty in filling a vacancy is, or is expected to be, especially severe.
- Isolation Allowance Fund (IAF)
Funding for physicians providing necessary medical services in eligible RSA communities with fewer than four physicians, and no hospital.
- Rural Emergency Enhancement Fund (REEF)
Funding for eligible rural emergency departments to support fee-for-service physicians who collaboratively plan for and provide public access to ED services on a regular, scheduled basis.

PROGRAMS

- Rural GP Locum Program (RGPLP)
Supports and enables rural GPs to have periods of leave from their practices for continuing medical education, vacation, and health needs.
- Rural GP Anaesthesia Locum Program (RGPALP)
Supports and enables rural GPs with enhanced anaesthesia skills (GPAs) to have periods of leave from their practices for continuing medical education, vacation, and health needs.
- Rural Specialist Locum Program (RSLP)
Supports and enables rural specialists to have periods of leave from their practices for continuing medical education, vacation, and health needs. Health authorities may apply to the RSLP in order to provide sustainable on-call services.

The Programs

Rural Retention Program (RRP)

Annual retention benefits are paid to physicians working in eligible communities covered under the RSA. The incentive program was designed to enhance the supply and stability of physicians in RSA communities.

The Program

A physician's individual premium is determined by the number of isolation points assigned to his or her community: 30% of medical isolation points are paid as a flat fee amount, while the remaining 70% are paid as a fee-for-service premium. Physicians who are paid by a method other than fee-for-service will receive a retention payment equivalent to the fee-for-service premium, and the flat fee sum. Physicians must meet eligibility requirements in order to qualify for the flat fee sum.

Isolation point ratings are based on a number of factors including the number of GPs in the community and the distance of the community from a major medical community. (See pages 29 through 32 for more information.) The JSC administers the RRP and determines the value of retention premiums. RSA communities must have a minimum of 6.0 isolation points to qualify for retention payments.

If a physician lives in an RSA community but practices in a different RSA community, he or she will receive the fee premium and flat sum premium for the community in which he or she practices.

For communities without a resident physician, or with a vacancy, the total isolation points will be applied as a fee premium, to a maximum of 30%.

The fee-for-service premium is automatically paid as long as the Service Clarification Code of the community where the service is provided is on the Medical Services Plan (MSP) claim.

Eligibility

- Physicians must reside and practice in an eligible RSA community for at least nine months per year.
- Physicians must bill equal to or greater than \$65,000 in the previous calendar year.

Rural Continuing Medical Education (RCME)

The RCME program provides physicians with funding opportunities for medical education to update and enhance medical skills and credentials required for rural practice. These benefits are in addition to the CME entitlement provided for in the Benefits Subsidiary Agreement between the BC Government and the BCMA.

The Program

- Administered and managed by the health authorities according to the policies established by the JSC.
- Physicians may use funds for individual or group education purposes.
- Funds may also be used to:
 - Cover overhead expenses while attending medical training.
 - Purchase new technology or upgrades necessary for participation in CME.
- Physicians can transfer unspent/banked funds to another health authority when relocating to another community eligible under the RSA.
- Physicians may bank RCME funds for up to three years from the year it was earned. A physician's annual RCME allowance is dependent on the designation of his or her community and the length of time he or she has practiced in that community.

Eligibility

- Physicians must reside and practice in an eligible RSA community for a minimum of nine months per year.
- A physician who qualifies for RCME but does not stay in a community covered by this agreement for a minimum of 12 months is eligible for a prorated amount.

GENERAL PRACTITIONERS	Up to 2 years	In 3rd & 4th year	Over 4 years
'A' communities	\$ 1,320.00	\$ 3,520.00	\$ 5,720.00
'B' communities	\$ 440.00	\$ 2,640.00	\$ 4,840.00
'C' communities	\$ 0.00	\$ 2,200.00	\$ 4,400.00
'D' communities	\$ 0.00	\$ 1,100.00	\$ 2,200.00

SPECIALISTS	Up to 2 years	In 3rd & 4th year	Over 4 years
'A' communities	\$ 1,800.00	\$ 4,800.00	\$ 7,800.00
'B' communities	\$ 600.00	\$ 3,600.00	\$ 6,600.00
'C' communities	\$ 0.00	\$ 3,000.00	\$ 6,000.00
'D' communities	\$ 0.00	\$ 1,500.00	\$ 3,000.00

Recruitment Incentive Fund (RIF)

Recruitment incentives are financial benefits available to physicians recruited to fill vacancies or pending vacancies that are part of a Physician Supply Plan in RSA communities.

The Program

- The incentive amounts vary based on the community designation as follows:
 - 'A' communities – \$20,000
 - 'B' communities – \$15,000
 - 'C' communities – \$10,000
 - 'D' communities – \$ 5,000
- Funding is prorated for physicians working less than full-time.
- A physician is obligated to repay this benefit if he or she leaves the community within one year of commencing work.

Eligibility

- Physicians recruited to fill a vacancy or pending vacancy in a RSA community.
- Physicians must be recruited from outside an eligible RSA community.

Recruitment Contingency Fund (RCF)

A specific recruitment fund was established to assist RSA communities with recruiting expenses where the difficulty in filling a vacancy is, or is expected to be, especially severe and where the failure to fill the vacancy in a timely manner would have a significant impact on the delivery of medical care required by the health authority's Physician Supply Plan.

The Program

The funds may be used for the following purposes:

- To cover recruiting expenses (i.e. , advertising, interview visits, and relocation expenses).
- To supplement the incentive fund benefit payable to recruited physicians.

Eligibility

- Physicians recruited to fill a vacancy or pending vacancy in an RSA community.
- Physicians must be recruited from outside an RSA community.
- The Health Authority must submit to the Ministry of Health - Rural Programs an application and written explanation of how the funding will be used.

Isolation Allowance Fund (IAF)

The IAF is available for physicians providing necessary medical services, in eligible RSA communities with fewer than four physicians and no hospital, who do not receive Medical On-call Availability Program (MOCAP), Call-Back, or Doctor of the Day payments.

The Program

- The amount payable per physician is dependent on the number of physicians available in the community and the community's degree of isolation, as determined by the annual RRP point assessment process.
- Payments are calculated and disbursed on an annual basis.
- For 2011/12, the payments ranged from \$12,403 to \$71,420 per physician.

Rural Emergency Enhancement Fund (REEF)

This program is intended to encourage the provision of reliable, public access to emergency services in health authority (HA) designated emergency departments in rural BC serviced by fee-for-service physicians.

REEF is intended to recognize and support the breadth and comprehensive nature of general practice in rural BC communities where physicians typically provide hospital services in conjunction with full-scope family practice services .

The Program

- Provides annual funding of up to \$200,000, where the health authority has designated a site for 24/7/365 public access to hospital emergency services.
- For less than 24/7/365 service, the annual funding amount will be reduced pro rata to correspond with the HA designated hours of public access.
- An Emergency Department (ED) coverage plan (Plan) will be developed by the group of community physicians who are prepared to commit to provide 24/7/365 public access to hospital emergency services in their communities.
- The Plan is to be developed collaboratively with the HA.
- Once approved, the physicians and HA will implement the Plan and submit quarterly invoices to the Ministry of Health (MoH) confirming whether the Plan was followed.
- Once reviewed by the MoH, funding will be released to the HA.
- The HA will release the quarterly funding to the "Appointee", as identified by the physician group in the REEF application, for distribution as appropriate.

Eligibility

- Applies to fee-for-service physicians supporting HA designated EDs in RSA communities.
- EDs and hours of public access must be formally recognized and supported by the HA.
- Physicians must be a part of the ED on-call rota and maintain active staff privileges in their rural community hospital or health authority designated facility.
- Physicians must sign the Plan on an annual basis.
- The maximum any one physician may receive under REEF is \$65,000 per annum.

Rural Education Action Plan (REAP)

REAP supports the training needs of physicians in rural practice, provides undergraduate medical students and postgraduate residents with rural practice experience, and increases rural physician participation into the medical school selection process.

The Undergraduate Rural Participation Program

This program helps support third and fourth year medical students while undergoing rotations in rural communities in BC. A bursary of \$250 per week and up to \$800 for travel is provided to offset the costs incurred by students during their rural participation. Students may also apply to extend their rural participation for up to four additional weeks, pending available funding.

Undergraduate Teacher's Stipend

This program was designed to recognize and compensate rural physicians for their time spent teaching undergraduate medical students. This program provides a stipend of \$450 per week (to a maximum of 8 weeks) to rural preceptors providing training to medical students during their Third Year and Fourth Year Undergraduate Rural Participation Programs in a Rural Community beyond the initial four weeks that is compensated by UBC through its Faculty of Medicine.

The REAP CME Programs

The REAP CME programs include opportunities for physicians serving in RSA communities to enhance their skills, as well as urban-based physicians who desire to enhance their skills with the intention of serving in RSA communities.

a) Advanced Skills & Training Program

The purpose of this program is to improve rural physician retention and skills by increasing opportunities to receive advanced training and skill enhancement. Training opportunities under this program are flexible in timing and may be from 1 to 60 days in length. Rural physicians are eligible to apply for up to 60 days of funding per fiscal year.

Eligibility:

- Physicians who have been living and practicing in a RSA community for at least nine months of the past year.
- Letter from the HA confirming that the skill is needed in the community.

Rural Education Action Plan (REAP)

Benefits:

- \$3,400 per week stipend to cover income loss.
- \$450 per week is to be paid to the primary preceptor, from the weekly stipend.
- Travel costs up to \$2,000 for the duration of the training period.
- Up to \$1,000 per week for accommodation.

b) First Year in Practice Enhancement Program (FYPEP)

The FYPEP allows physicians in their first year of rural practice in BC to access REAP funding for skill upgrades. Eligible physicians may receive up to five days of training for every one month of service in an RSA community.

Eligibility

- Physicians who are entering their first year of practice in an RSA community.
- Letter from the health authority confirming that the skill is needed in the community.

Benefits

- \$3,400 per week stipend to cover income loss.
- \$450 per week is to be paid to the primary preceptor, from the weekly stipend.
- Travel costs up to \$2,000 for the duration of the training period.
- Up to \$1,000 per week for accommodation.

c) Rural Locum Service Upgrade Program (RLSUP)

The RLSUP provides opportunities for locums actively serving rural communities to pursue skill upgrades in areas allied with rural practice. Physicians are eligible to apply for up to ten days of funding for every 90 days of service to the Rural GP Locum Program.

Eligibility:

- Physicians enrolled in the RGPLP and actively servicing rural communities in BC.

Benefits:

- \$3,400 per week stipend to cover income loss.
- \$450 per week from stipend to go towards primary preceptors or departments.
- Travel costs up to \$2,000 for the duration of the training period.
- Up to \$1,000 per week for accommodation.

d) Urban Skills Enhancement Program (USEP)

This program provides funding for physicians not living and practicing in rural communities, for the purpose of enhancing education so that a physician can qualify as a rural locum or to enter family practice in a rural community in BC.

Urban physicians who take advantage of the USEP must agree to join an RSA practice or provide rural locum services in an RSA community for a minimum of one month within four months of completion of training.

Benefits:

- REAP will provide compensation for successful completion of ATLS course and compensation for one month of training in a postgraduate rural training site in BC. Compensation is in the form of a stipend of \$3,400 per week.
- Travel costs up to \$2,000 for the duration of the training period.
- Up to \$1,000 per week for accommodation.

e) Rural GP Locum CME Program

The Rural GP Locum CME Program makes funding available to active members of the Rural GP Locum Service in order for them to re-certify in ACLS.

Eligibility:

- Must be an active member of the Rural GP Locum Service.
- ACLS re-certification must be taken during the fiscal year in which the application is submitted.

Benefits:

- \$350 stipend.

Specialty Training Bursary Program

The Specialty Training Bursary Program will provide funding to eligible medical specialty residents or rural physicians completing focused postgraduate training in a Family of Medicine (FOM) Specialty Training Program. A one-year return of service requirement is attached to each year of funding that the successful applicant receives. Preference will be given to specialties identified as being “in need” in rural communities of BC.

The Program:

- Each successful applicant will be eligible for up to two years of bursary funding (at \$25,000/annum) to a maximum of \$50,000.
- Two bursaries will be offered in each fiscal year.

Eligibility:

- Residents or rural physicians are enrolled in a Canadian Specialty Residency program and are entering their final two years of residency.
- Residents or rural physicians have been accepted to a position by a specialty department of a hospital included in the RSA once they have completed their residency program.
- Bursary funding is only available while the recipient is pursuing a Specialty Residency Program.

Northern & Isolation Travel Assistance Outreach Program (NITAOP)

NITAOP provides funding for approved physicians who visit eligible rural and isolated communities to provide medical services.

The Program

- Provides a travel time honorarium for approved visiting specialists and general practitioners.
- Health authorities submit an annual request for visiting physicians to the Ministry of Health.

Eligibility for General Practitioners

- General practitioners are eligible for funding to visit eligible RSA communities where a general practitioner is not available within 105 km of the community.
- A maximum of 48 visits per community per year may be approved.

Eligibility for Visiting Specialist Physicians

- Eligibility for each requested specialty service sought is assessed individually.
- Specialists are eligible for funding to visit eligible RSA communities where a specialist of the same specialty is not available within 105 km of the community.
- A maximum of 24 visits per specialty for each community per year may be approved.
- Specialty services eligible for funding (when not supported by other outreach programs) include:

- Cardiology
- Dermatology
- ENT
- General Surgery
- Internal Medicine
(including subspecialty services)
- Methadone Program
- Neurology
- Obstetrics & Gynecology
- Oncology

- Ophthalmology
- Orthopedic Surgery
- Pediatrics
- Plastic Surgery
- Physiatry
- Psychiatry
(including subspecialty services)
- Radiology
- Urology

Travel Reimbursement

- Reimbursement will be paid directly to approved visiting physicians by MSP upon receipt of their travel expense form and applicable original receipts for each visit.
- Travel expense forms and receipts must be submitted before June 30 for the previous fiscal year.

Travel Time

- Approved physicians are entitled to a travel time honorarium.
- Travel time is calculated from the time the physician leaves his or her residence/office to the time he or she arrives in the community, and from the time the physician leaves the community to the time he or she arrives to his/her residence/office.
- Travel time will be reimbursed per return trip as follows:
 - Less than 2.5 hours = \$250.00
 - 2.5 to 4 hours = \$500.00
 - 4 to 10 hours = \$1,000.00
 - Greater than 10 hours = \$1,500.00

Making Requests

- Health authorities must submit funding requests for the upcoming fiscal year to the Ministry of Health.
- Funding requests submitted by the health authorities for the upcoming fiscal year are reviewed by the JSC at the beginning of the calendar year.

Rural GP Locum Program (RGPLP)

The RGPLP was established to assist rural GPs in taking reasonable periods of leave from their practices. The program provides locum physicians with opportunities to practice in rural British Columbia and enables rural GPs to secure subsidized relief for continuing medical education (CME), vacation, and health needs. A locum pool is maintained by the RGPLP.

The Program – Host Physician Information

- Each rural physician who meets the eligibility criteria may request the following number of days of locum services per fiscal year based on community designation:
 - 'A' communities – 43 days
 - 'B' communities – 38 days
 - 'C' communities – 33 days
 - 'D' communities – 28 days
- Each request must be a minimum of 5 days, except for weekend assignments (see p.19).
- When a statutory holiday falls mid-week, a locum assignment may be a minimum of 4 days, but 5 days will be deducted from the host physician's annual eligible number of days.
- The host physician retains 40% of the MSP fee-for-service paid claims to cover overhead.
- To qualify, a host physician must be living and practicing medicine in an eligible RSA community with seven or fewer full-time general practitioners.
- Where there is a vacancy in the physician supply plan that is causing serious health care service access problems and/or an unreasonable workload being placed on a physician, the health authority may request locum coverage.

To Obtain a Locum

- Contact the RGPLP using the contact information provided in this booklet to request a Locum Assistance Form.
- The RGPLP arranges locum assignments and assists with facilitating hospital privileges.

Host Physician Responsibilities

- Provide the locum, in advance of the assignment, with a list of responsibilities the host physician expects the locum to fulfill, as well as a written explanation of all payments and other supports the locum can expect to receive during, and resulting from, the locum assignment.
- Provide reasonable accommodation for the locum physician.
- Submit claims within two weeks of the end date of the locum assignment and refused claims within two weeks of the refusal date.
- Provide the locum with a detailed reconciliation of claims submitted.
- Ensure that the locum receives the on-call payment and retention premium, if applicable.
- Reimburse the locum for services not covered by MSP (i.e. ,private, ICBC, WCB, and reciprocal billings), less the 40% recovered for overhead.

The Program – Locum Physician Information

- RGPLP locums are paid the following guaranteed daily rates based on community designation:
 - ‘A’ communities – \$900
 - ‘B’ communities – \$850
 - ‘C’ communities – \$800
 - ‘D’ communities – \$750
- When provided by the host physician and required by a rural hospital, a daily stipend of \$50 per day for Emergency and Obstetrics/Gynecology and \$100 per day for General Surgery and Anaesthesia is paid. If more than one enhanced skill is provided, the maximum is \$100 per day.
- Locums may also receive a proportionate payment for on-call and the retention premium, if agreed by the host physician.
- Claims must be submitted using the host physician payment number and the locum physician practitioner number.

Locum Eligibility

- Contact the RGPLP to request a Locum Application Form.
- Must have a current certificate in Advanced Cardiac Life Support (ACLS) or the Comprehensive Approach to Rural Emergencies Course (CARE); or the Certificate in Advanced Trauma Life Support (ATLS) is preferred.
- Must be a GP licensed to practice in British Columbia.
- Must be a member in good standing with the Canadian Medical Protective Association or carry alternative medical malpractice insurance.
- Must assign payment to the host physician payment number.

Weekend Locum Assignments

- The RGPLP also provides weekend locum coverage of three days of short-term relief for rural physicians. A weekend commences on Friday at 18:00 and concludes at 08:00 on Monday (or 08:00 Tuesday if a statutory holiday is part of the weekend).
- Payment for weekend coverage as described above is:
 - ‘A’ communities – \$2,450
 - ‘B’ communities – \$2,300
 - ‘C’ communities – \$2,150
 - ‘D’ communities – \$2,000

Rural GP Anaesthesia Locum Program (RGPALP)

The RGPALP assists general practitioners with enhanced anaesthesia skills (GPAs) in eligible rural communities to secure subsidized leave from their practices for purposes such as CME, vacation, and health needs.

The Program – Host Physician Information

- Rural general practitioners who provide core anaesthesia services are eligible for locum coverage for up to a maximum of ten days per fiscal year.
- Each request must be at least two days in duration.
- To qualify, a host physician must have obtained training in the core anaesthesia service area; actively participate in providing on-call anaesthesia support; and live and practice medicine in an eligible RSA community with seven or fewer GPAs.
- Communities eligible for the RGPALP must not be eligible for the RGPLP.

To Obtain a Locum

- Contact the RGPALP using the contact information provided in this booklet to request a Locum Assistance Form.
- The RGPALP arranges assignments and the health authority assists with facilitating hospital privileges.

Host Physician Responsibilities

- Provide the locum, in advance of the assignment, with a list of the responsibilities the host physician expects the locum to fulfill, as well as a written explanation of all payments and other supports the locum can expect to receive during and resulting from the locum assignment.
- Provide reasonable accommodation for the locum physician.
- Provide the locum with detailed information on the care and treatment of patients in hospital.
- Reimburse the locum for services not covered by MSP (i.e., private, ICBC, WCB, and reciprocal billings), less the amount recovered for overhead.
- Provide the locum with a detailed reconciliation of claims submitted.
- Ensure that the locum receives the on-call payment and retention premium, if applicable, from the health authority

The Program - Locum Physician Information

- RGPALP locums are paid the following guaranteed daily rates based on community designation
 - ‘A’ Communities - \$1,000
 - ‘B’ Communities - \$950
 - ‘C’ Communities - \$900
 - ‘D’ Communities - \$850
- In cases where a certified anaesthetist provides coverage for a GPA, he or she will be paid a guaranteed daily rate of \$1,200.
- Locums are eligible to receive payment for on-call through MOCAP.
- For office-based assignments, locums must assign payment to the host physician’s payment number.
- For on-call assignments, locums must apply for an additional payment number and bill all claims under that payment number for the duration of the assignment.
- Locums must cover at least the anaesthesia portion of the host physician’s practice.

Locum Physician Eligibility

- Contact the RGPALP to request a Locum Application Form.
- Must be licensed to practice in British Columbia.
- Must have obtained training in the anaesthesia core service area.
- Must be formally credentialed and granted privileges by the applicable health authority to practice core anaesthesia services in a rural hospital.
- Must be a member in good standing with the Canadian Medical Protective Association or carry alternative medical malpractice insurance.
- Must not live or regularly provide core anaesthesia services in the rural community where the locum service is to be provided.
- Certificates in Advanced Cardiac Life Support (ACLS) and Advanced Trauma Life Support (ATLS) are preferred.

Rural Specialist Locum Program (RSLP)

The RSLP helps rural specialists secure subsidized periods of leave from their practices for purposes such as CME, vacation, and health needs. Subject to prior authorization by the JSC and availability of funding and locums, the RSLP may also be used to assist health authorities address serious gaps in the provision of specialist services caused by vacancies in physician supply plans.

The Program – General Information

- The current list of RSLP eligible communities approved by the JSC is: Campbell River, Comox, Courtenay, Cranbrook, Dawson Creek, Ft. St. John, Kitimat, Nelson, Port Alberni, Powell River, Prince George, Prince Rupert, Quesnel, Salmon Arm, Sechelt, Smithers, Terrace, Trail, and Williams Lake.
- The designated core specialties are anaesthesia, general surgery, internal medicine, orthopedics, pediatrics, obstetrics, psychiatry, and radiology.
- There must be fewer than five physicians who maintain hospital privileges and provide on-call support in that specialty service within 70 km of a major medical centre.

The Program – Host Physician Information

- Rural physicians in designated core specialty categories who maintain privileges in a rural hospital and who participate in an on-call group in support of a rural hospital's operations in designated rural communities are eligible for up to 35 days of locum coverage per fiscal year.
- Each request must be at least two days in duration.
- To qualify, a host physician must reside and practice for a minimum of nine months of the year in a designated community.
- In cases where the program provides locum services solely for the purpose of filling the medical on-call availability schedule, the health authority will ensure that the locum days are applied against each of the local specialist's 35 days in an equitable manner.

To Obtain a Locum

- Contact the RSLP using the contact information on page 5 to request a Specialist Locum Assistance Form.
- The RSLP arranges a locum assignments and the health authority facilitates hospital privileges.

Host Physician Responsibilities

- When the locum is providing office-based services, the host physician is expected to submit claims within two weeks of the end date of the locum assignment and refused claims within two weeks of the refusal date.
- Provide the locum with a detailed reconciliation of claims submitted.
- Ensure that the locum receives the on-call payment and retention premium, if applicable.
- Reimburse the locum for services not covered by MSP (i.e., private, ICBC, WCB, and reciprocal billings), less the 40% recovered for overhead.
- Reasonable accommodation is to be provided by the health authority.

The Program – Locum Physician Information

- RSLP locums are paid a guaranteed rate of \$1,200 per day.
- Locums are eligible for on-call payments through MOCAP.
- For office-based assignments, locums must assign payment to the host physician's payment number.
- For on-call assignments, locums must apply for an additional payment number and bill all claims under that payment number for the duration of the assignment.

Locum Eligibility

- Contact the RSLP to request a Locum Application Form.
- Must be certified by the Royal College of Physicians and Surgeons or be a non-certified specialist with additional recognized training in one of the core specialties and eligible to write qualifying exams.
- Must be a member in good standing with the Canadian Medical Protective Association or carry alternative medical malpractice insurance.
- Must not be a core specialist in a RSLP-designated specialty centre.
- Certificates in Advanced Cardiac Life Support (ACLS) and Advanced Trauma Life Support (ATLS) are preferred.

Rural Coordination Centre of BC

Rural Coordination Centre of BC
Enhancing rural health through education and advocacy
Linking community needs and policy development with the JSC

The Rural Coordination Centre of BC (RCCbc) seeks to improve rural patient care and the health of rural British Columbians by supporting the coordination of rural health care education, rural practitioners, and community health care service, professional partnerships, and networks. These goals are achieved through communication, facilitation, collaboration, networking, and the sharing of best practices.

RCCbc is a key rural health advocate in BC and engages in ongoing dialogue with rural physicians and other rural health care service providers, rural communities, health authorities, rural health educational institutions, and government.

RCCbc is funded by and accountable to the Joint Standing Committee on Rural Issues.

A core team of dedicated rural health professionals advance the work of the RCCbc in six areas of interest:

Education and Training

- Promote “closer to home” continuing professional development (CPD) for rural health professionals.
- Facilitate a deeper understanding of rural health care issues through learning in rural communities.

Recruitment and Retention

- Collaborate in the development of proposals contributing to the adequate supply of health professionals for rural BC.
- Support and develop strategies for recruitment and retention.
- Investigate and recommend solutions for vulnerable communities when requested.

Specific Populations

- Identify the needs of specific populations (e.g., Aboriginal, mental health, emergency services, and geriatric care) and develop appropriate supports (e.g., policies, tools, CME/CPD) to serve these groups.
- Communicate and promote best practices among rural practitioners serving these populations.

Communications

- Promote ongoing discussions about education and practice.
- Facilitate networking of rural health care professionals.
- Maintain and develop lines of communication between all rural health and rural community stakeholders.
- Host an annual rural conference that includes a rural training component that offers small group “hands-on” or skills-based interprofessional learning where possible.

Models of Health Service Delivery

- Contribute to the development of the best supported rural interprofessional health practitioners in Canada.

Rural Health Services Research, Evaluation, and Quality Improvement

- Evaluate the many strategies being implemented by the RCCbc and REAP.
- Advance an understanding of the benefits of rural training and research.
- Integrate rural health service outcomes into health policy.

Communication with Health Authorities

The Ministry of Health relies on the health authorities to provide information on rural physicians practicing in their geographic areas in order to budget and make payments under the RSA.

In order to streamline the receipt of benefits, practicing physicians should inform the health authority when they start work in a RSA community. The health authority will subsequently inform the Ministry of Health when the physician has met the residency requirement for the rural retention program flat fee.

At the end of each calendar year, health authorities must provide the Ministry of Health with updated information on physicians living and working in rural communities. This information is used to determine community isolation points and to pay flat fee retention premiums and RCME funding.

The length of time a physician has been in any rural community prior to and including his or her current location may also affect his or her RCME entitlement and when he or she starts to receive the flat fee retention payment. When past work locations and time spent in these locations are unknown, it can result in delays in the payment of the flat fee retention amount and an incorrect calculation of RCME entitlement.

Periods of time away from practice, depending on length, can affect both the residency requirement for the flat fee retention premium and accumulated time for RCME. Physicians should inform the health authority of extended absences to ensure correct calculations.

Community Designation

A, B, C, and D Communities

RSA communities are designated A, B, C, or D based on the number of isolation points they receive as outlined below.

'A' communities – 20 or more

'B' communities – 15 to 19.9

'C' communities – 6 to 14.9

'D' communities – .5 to 5.9

Physicians practicing in A, B, or C communities are eligible for all the rural programs subject to meeting individual program requirements. Physicians residing in D communities are eligible for the following rural programs subject to meeting individual program requirements: RCME, RIF, RCF, RGPLP, RGPALP, and REAP.

Communities Covered by the RSA

Subject to meeting the minimum point requirement, based on an annual assessment.

100 Mile House	Cranbrook	Invermere
Agassiz/Harrison	Crescent Valley	Kaslo
Ahousat	Creston	Keremeos
Alert Bay	Dawson Creek	Kimberley
Alexis Creek	Dease Lake	Kincolith
Anahim Lake	Denman Island	Kingcome
Armstrong/Spallumcheen	Doig River	Kitimat
Ashcroft	Duncan/N. Cowichan	Kitkatla
Atlin	Edgewood	Kitsault
Bamfield	Elkford	Kitwanga
Barriere	Enderby	Klemtu
Bella Bella	Fernie	Kootenay Bay/Riondel
Bella Coola	Fort Nelson	Kyuquot
Big White	Fort St. James	Ladysmith
Blind Bay	Fort St. John/Taylor	Lake Cowichan
Blueberry River	Fort Ware	Lillooet
Blue River	Fraser Lake	Logan Lake
Bowen Island	Gabriola Island	Lower Post
Bridge Lake	Galiano Island	Lumby
Burns Lake	Gold Bridge/Bralorne	Lytton
Campbell River	Gold River	Mackenzie
Canal Flats	Golden	Madeira Park
Castlegar	Granisle	Masset
Chase	Greenwood/Midway/ Rock Creek	Mayne Island
Chemainus	Halfway River	McBride
Chetwynd	Hartley Bay	Merritt
Christina Lake/Grand Forks	Hazelton	Mill Bay
Clearwater	Holberg	Miocene
Clinton	Hope	Mount Currie
Cobble Hill	Hornby Island	Nakusp
Cortes Island	Hot Springs Cove	Nelson
Courtenay/Comox/ Cumberland	Houston	New Aiyansh
	Hudson's Hope	New Denver

Communities Covered by the RSA

Nitinat	Savory Island	Tumbler Ridge
Ocean Falls	Sayward	Ucluelet
Osoyoos/Oliver	Sechelt/Gibsons	Valemount
Parksville/Qualicum	Seton Portage	Vanderhoof
Pemberton	Shawnigan Lake	Wardner
Pender Island	Sirdar	Whistler
Port Alberni	Skatin	Williams Lake
Port Alice	Slocan Park	Winlaw
Port Clements	Smithers	Woss
Port Hardy	Sointula	Zeballos
Port McNeill	Sooke	
Port Renfrew	Sorrento	
Port Simpson	Sparwood	
Powell River	Squamish	
Prince George	Spences Bridge	
Prince Rupert	Squamish	
Princeton	Stewart	
Quadra Island	Tahsis	
Quatsino	Takla Landing	
Queen Charlotte	Takla Lake	
Quesnel	Tatlayoko Lake	
Revelstoke	Telegraph Creek	
Rivers Inlet	Tepella	
Salmo	Terrace	
Salmon Arm/Sicamous	Texada Island	
Saltspring Island	Tofino	
Samahquam	Trail/Rosland/Fruitvale	
Saturna Island	Tsay Keh Dene	

Community Rating System

Medical Isolation Assessment System

The following chart outlines the factors by which the JSC determines the number of points designated for each rural BC community within the RSA. The point system is used to categorize and group communities in order to determine eligibility for programs under the RSA. A description of each category is found on the following page. The JSC regularly reviews the criteria and may make changes periodically.

Medical Isolation and Living Factors	Points	Max Pts
<i>Number of Designated Specialties* within 70 km</i>		
0 Specialties within 70 km	60	
1 Specialty within 70 km	50	
2 Specialties within 70 km	40	
3 Specialties within 70 km	20	
4+ Specialties within 70 km	0	
<i>Number of General Practitioners within 35 km</i>		
Over 20 Practitioners	0	60
11-20 Practitioners	20	
4 to 10 Practitioners	40	
0 to 3 Practitioners	60	
<i>Community Size (If larger community within 35 km, then larger population is applied)</i>		
30,000 +	0	25
10,000 to 30,000	10	
Between 5,000 and 9,999	15	
Up to 5,000	25	
<i>Distance from Major Medical Community (Kamloops, Kelowna, Nanaimo, Vancouver, Victoria, Abbotsford, Prince George)</i>		
First 70 km of road distance	4	30
For each 35 km over 70 km	2	
To a maximum of 30 points	30	

Community Rating System

Medical Isolation and Living Factors	Points	Max Pts
<i>Degree of Latitude</i>		
Communities between 52 to 53 degrees latitude	20	
Communities above 53 degrees latitude	30	30
<i>Specialist Centre*</i>		
3 or 4 designated specialties in physician supply plans	30	
5 to 7 designated specialties in physician supply plans	50	
8 designated specialties and more than one specialist in each specialty as set out in the Physician Supply Plan	60	60
<i>Location Arc</i>		
Communities in Arc A (within 100 km air distance from Vancouver)	0.10	
Communities in Arc B (between 100 and 300 km air distance from Vancouver)	0.15	
Communities in Arc C (between 300 and 750 km air distance from Vancouver)	0.20	
Communities in Arc D (over 750 km air distance from Vancouver)	0.25	0.25

*Designated specialties, as per the RSA, are: general surgery, orthopedics, pediatrics, internal medicine, obstetrics/gynecology, anaesthesiology, psychiatry, and radiology.

Medical Isolation Point Assessment

Number of Designated Specialties within 70 km

All designated specialties within 70 km of the community, by road or ferry, where the specialist(s) meeting the Full Time Equivalent (FTE) income figure are counted.*

Designated specialties: General Surgery, Orthopedics, Pediatrics, Internal Medicine, Obstetrics/Gynecology, Anaesthesiology, Psychiatry, and Radiology.

*A FTE physician is a physician that is above the 40th percentile of earnings for the relevant specialty.

Number of General Practitioners within 35 km

General practitioners practicing within 35 km by road of the community and who meet the FTE income count. General practitioners practicing in a community within 35 km of the community by ferry are not counted.

Community Size

Where a community is within 35 km by road of a larger community, the points are based on the population of the larger community. Where a community is within 35 km of a larger community by ferry, the population of the larger community is not counted. When two communities are combined in this Agreement, the populations will be amalgamated.

Distance from a Major Medical Community

The designated major medical communities are Abbotsford, Kamloops, Kelowna, Nanaimo, Prince George, Vancouver, and Victoria. Major medical communities have at least three practicing specialists in each of the designated specialties.

Degree of Latitude

Points are allocated for those communities in British Columbia located at and above the 52° of latitude.

RSA Specialist Centre

Points will be assigned to RSA communities where the regional Physician Supply Plan requires designated specialists to provide services for a community. A RSA community located within 35 km by road of a RSA Specialist Centre will receive the same points as the RSA Specialist Centre for this factor. All physicians working in any RSA community as of December 31, 2007 are deemed to be included in the Plan for the term of the RSA.

Location Arc

Four differential multipliers have been established to determine the total points to decide retention allowance figures. Arcs are based on air distance from Vancouver and multiplied by the applicable factor to determine the community's total number of points.

Road and Ferry Distances

Road distances are supplied by Davenport Maps Ltd.® Ferry crossing distances are provided by BC Ferries and in the case of inland ferries, the Ministry of Transportation and Highways.

- Road distances are used as a proxy for travel time.
- Road distances are converted to travel time using an assumed average speed of 70 km per hour.
- For communities only accessible by ferry, the distance is calculated by multiplying the water distance x 8; the ferry distance is then added to the applicable road distance.

Communities that do not qualify for RRP under the RSA receive 50% of the previous year's retention allowance for one year.
